Nursing Resilience: Disruptions in Practice, Research, Education, Policy and Entrepreneurship

Dear NBNA Members and Attendees,

The frontline nurse champions show resilience through novel approaches to the nursing practice. “Disruptions” or innovations demonstrate new concepts to deliver safe, high quality, patient centered care while at the same time promoting nursing in a variety of areas, practice, research, education, policy and entrepreneurship. The “disruptions” may offer better patient outcomes, lower costs to the health care system and offer the agility that nurses need to practice at their scope of practice and the top of their game.

**Conference Objectives:**

- Discuss disruptive trends in health care delivery and financing.
- Examine emerging opportunities for transforming the future of nursing through innovative nursing/interdisciplinary practice, education, research and policy advocacy.
- Identify new models of care to reduce inequities in health care and health outcomes for minority and underserved communities.
