Dear NBNA Members and Attendees,

We are beyond excited as we commence planning our 49th Annual Institute and Conference and our 50th Anniversary Celebration! The conference will take place from **Tuesday, August 3 to Sunday, August 8, 2021** at The Hilton Anatole Hotel in Dallas, Texas. The National Office, Board and hotel staff are working to ensure we have a fabulous, memorable, and engaging event in a comfortable and safe learning environment.

Our Conference Committee and staff goals are to offer you the very best in continuing education, career development, leadership enhancement and networking every day. We guarantee you will have a memorable 2021 conference experience. Please thoroughly review the registration materials as there are several changes and new additions to the conference schedule. For example, we are adding poster sections this year.

If you enjoyed the 2019 conference in New Orleans or the 2020 Virtual Conference in September, (or missed them), you don’t want to miss this very special conference. We invite you to bring a friend and join us for this productive and successful conference. Dallas, Texas and all of our Texas members are waiting for you!

I look forward to seeing you all in Dallas!

Martha A. Dawson, DNP, RN, FACHE

Celebrating 50 Years of Innovative Community Service, Practice, Education, and Research in Nursing

As we celebrate the 50th Anniversary of NBNA, we reflect on the reason the National Black Nurses Association came to be and how technology and science has changed the face of nursing practice and healthcare. We find that our nurse champions on the frontline show resilience through novel approaches to deliver safe, high quality, patient centered care, while at the same time promoting nursing in a variety of areas, practice, research, education, policy, and entrepreneurship. The “disruptions” may bring about better patient outcomes, lower costs for healthcare and offer the agility that nurses need to practice at their professions with the goal of providing quality health care for all.

Conference Objectives:

- Discuss the importance of a nurse’s ability to be resilient and practice self-care.
- Discuss disruptive trends in health care delivery and inequity in healthcare.
- Examine emerging opportunities for transforming the future of nursing through innovative nursing/interdisciplinary practice, education, research, and policy advocacy.
- Identify new models of care to reduce inequities in healthcare and improve health outcomes for minority and underserved communities.
