NATIONAL BLACK NURSES ASSOCIATION

Celebrates

Black History Month
with Black Nurse Leaders

Tonya Moore, PhD, RN
Executive Director
Mississippi Nurses Association

“I’ve learned throughout my leadership career:

• to embrace the concept of experiential learning, especially during a global pandemic and a renewed social injustice era.
• that authentic and inclusive leadership demonstrated consistently will have a positive influence beyond expectations.
• to value the process of leadership development, it builds confidence.
• that people matter, including those I don’t yet know.”
