**Review of Resolutions Procedure and Guidelines**

The Resolutions Committee charge states:

Following procedures and policies approved by the NBNA Executive Board, the Committee shall also be responsible for reviewing resolutions, which are submitted by NBNA members or entities and for forwarding those resolutions to the NBNA Executive Director and NBNA Secretary for consideration at the NBNA Business Meeting at the Annual Conference Meeting of the Association.

In conducting this review, the Committee should insure that all resolutions have been composed using the following guidelines. If a resolution does not meet these guidelines, it should be returned to the person or entity which submitted it with a request that the resolution be redrafted to comply and with suggestions to assist with the redrafting. See the above section, "Writing a Resolution."

The Resolutions Committee will prepare a brief statement indicating if the final version of the proposed resolution meets the guidelines, and noting any ways in which it does not. The Committee should then forward the resolution and statement to the NBNA Secretary for placement on the NBNA Board of Directors Business Meeting agenda.

**Resolution Alternatives**

Although there is only two Business Meetings at the NBNA Annual Conference, NBNA members may use several methods to promote discussion of issues of importance to the profession. Advances in technology allow for discussion of issues outside the Annual Meeting framework that were not possible in earlier years and allow more members to participate.

Not every option is appropriate for every issue. If a member is not sure how to proceed, he or she may want to start by talking with the President, Executive Director and/or the chair of a committee. Any of these alternatives can help build support for an issue and lead to the submission of a resolution; taking the time to build support for an issue can give a true reflection of how the membership feels about an issue.
